### DETAILED ACTION

1. The Request for Continued Examination in Paper filed on 5/30/07 is acknowledged.
2. The cancellation of claims 1-15, 24, 33, and 41 in Paper filed on 5/30/07 is acknowledged.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 16-23, 25-32, 34-40, and 42-45 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

- In amended independent claim 16 filed on 4/30/07, the limitation "a plurality of support portions formed at edge corners of the flat portion **therein**" is not supported by the original disclosure. For example, Fig. 3 of Applicant's drawing does not show the support portion 131 being overlapped with any portions of the flat portion 130. More evidently, Fig. 4 of Applicant's drawing also clearly shows that the support portions are formed outside the area of the flat portion 230. Therefore, forming the support portions within (i.e., therein) the flat portion is not supported by the original disclosure.

- Similarly, in amended independent claims 29 and 38, the limitation "a plurality

Art Unit: 2814

of support portions formed at edge corners of the bottom surface of the flat portion” is also not supported by the original disclosure because of the same reasons above.

- Dependent claims 17-23, 25-32, 34-40 and 42-45 are also rejected because they either directly or indirectly depend from rejected independent claims 16, 29, or 38.

***Response to Arguments***

5. Applicant argues that Glenn does not disclose the support portions formed within the flat portion. However, this is a new matter which is not supported by the original disclosure (see ground of rejection for more details).
